## CAREER OBJECTIVE

Aspiring Embedded Systems Engineer currently undergoing specialized training in Embedded System Development, with a strong passion for innovation and continuous learning. Seeking an opportunity to contribute to an organization where I can apply my technical knowledge and problem-solving skills to develop efficient embedded solutions. Dedicated to create a win-win environment by driving both personal and organizational growth through hard work, adaptability, and a commitment to excellence.

## TECHNICAL SKILLS

- **Languages:** C, HTML, CSS, JavaScript, React JS, SQL.
- **Developer Tools:** Linux, MySQL, Git, GitHub, Xampp, MS Office, Visual Studio Code.
- **Designing/UI Tools:** Figma, Canva, Adobe Lightroom.
- **Front-End Skills:** UI Design, Responsive Design.

## EXPERIENCE

### Full Stack Developer Intern | Fiction Master | Remote

Mar 2025 - Sept 2025

- Developed and deployed 5+ full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js), with occasional use of PHP and MySQL for specific client requirements.
- Engineered a secure E-commerce platform (Vasanthamaaligai) integrated with Razorpay payment gateway, managing the complete development lifecycle from UI design to deployment.
- Built responsive and SEO-friendly company websites for international and domestic clients, including Fiction Master and ASQest, utilizing modern front-end technologies like Tailwind CSS.
- Owned end-to-end project responsibilities including UI/UX design, front-end and back-end development, database management, and final deployment/hosting on platforms like Netlify.
- Implemented website maintenance and SEO strategies to ensure optimal performance and search engine visibility.
- Collaborated in a remote agile environment, utilizing Git and GitHub for version control and collaborative development.

### Web Developer Internship | InnoByte Services, New Delhi

Jul 2024 - Aug 2024

Redesigned the Kingsukh Guest House website using HTML, CSS, and JavaScript to enhance.

### Web Development Internship | National Small Industries Corporation, Chennai

Jun 2023 - Jul 2023

Mastered web development fundamentals such as HTML, CSS, and JavaScript during internship. Developed a responsive portfolio project to demonstrate web development expertise and practical application.

## EDUCATION

### Bachelor of Engineering in Electrical and Electronics Engineering (7.096 CGPA)

Jun 2025

Alagappa Chettiar Government College of Engineering and Technology, Karaikudi

### Diploma in Electrical and Electronics Engineering (93 %)

Jun 2021

Kongunadu Polytechnic College, D.Gudalore

# PROJECT

## College Website

- Developed a website for the EEE Department featuring staff and student login functionalities.
- Implemented features such as student performance tracking (attendance, marks) and automated permission letter generation.
- Integrated a system where attendance details marked in a spreadsheet are automatically converted into graphical representations on the dashboard.
- Technologies Used: HTML, CSS, JavaScript, PHP, and MySQL.

## AI Chat Bot

- Designed and developed a chat-bot website using HTML, CSS, JavaScript, and an API key.
- The chat bot provides interactive user engagement and demonstrates the integration of third-party APIs.

## Income & Expenses Tracker

- Built a web-based application for tracking income and expenses using HTML, CSS, and JavaScript.
- Enabled users to input, categorize, and manage financial transactions efficiently.
- Utilized local storage techniques to store data on the user's browser, showcasing client-side storage management.
